VISITEC HOSE GUIDE

A NEW DIMENSION IN THE FASTENING TECHNOLOGY

CONVINCING ADVANTAGES:

- Simple assembly without damaging the hoses
- Flexible installation
- Variable diameters
- Fixation of up to four hoses with different diameters
- Maintaining complete flexibility
- Successful field testing

The special manufacture and the new design allow for a flexible installation of the hoses; at the same time, damage during assembly is prevented. Due to the variable number of diameters, guides of up to four hoses are possible. The new VISITEC hose guide from RSB features can be assembled quickly and easily with many different installation options.
