FOR MAN & TECHNOLOGY

## FOR IMPROVED SAVETY !

the new '**fire retardant protection wrap**'  
is a **conductive thermoplastic compound** - the ideal solution wherever  
reliable fire-resistance is required .

our protective wrapping is made to  
**protect** hydraulic and pneumatic  
hoses against shocks, abrasion  
and deteriorations.

our protective wrapping can **easily be mounted** on existing or new assembled  
hydraulic hoses, giving them **protection**  
against wear and damage caused by  
aggressive working conditions.
